Re: My experience with the office
of Dr. Nancy Richman, AuD, CCC-A

Finally... after decades of asking,
"What?", I no longer have to!
Once Dr. Richman carefully
examined my hearing loss and
fitted me with appropriate
hearing aids, I no longer have
to turn the volume up to an
"eardrum-shattering" level when
watching TV or a DVD, or miss
most of the discussion at a
meeting or with a group of
people in a noisy environment,
or be unable to hold a
conversation at a restaurant,
or have difficulty hearing my
husband when indoors or outdoors.
I wish I had done this many
decades ago when I too often
asked, "What?".

I am so happy I chose
Dr. Richman for my hearing
needs.

Sincerely,
CMA
