

# Ladybug Craft Ideas

This is inspiration for a cutting activity!

Have your child cut or rip strips of grass.

If ready, have your child work on cutting circles for the ladybugs as well. It is easier if you fold the paper in half and draw a half circle. Thick, black lines are the easiest to cut.

Have your child copy lines and circles to decorate the ladybugs.

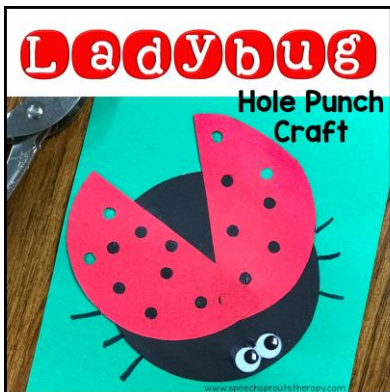

<https://onelittleproject.com/egg-carton-ladybugs/>

Here are ladybugs you can make from egg cartons!

Painting encourages bilateral hand use to hold the cartons while painting.

You can use a q-tip to paint dots on the shells ☺

Here is inspiration for a hand strengthening activity with a hole punch. Your child may need you to model how to use a hole punch at the beginning or may need your help to incorporate both hands into the activity (holding the paper in one hand and using the hole punch in the other).
